

Degree Partnerships

Credit Transfers to Accredited Institutions

Students who wish to transfer FAES academic credits to other institutions in the U.S. or worldwide should not assume that courses taken at FAES will be automatically accepted in transfer, although FAES courses may be accepted in transfer by U.S. colleges or universities. Students who wish to work for an undergraduate, graduate, or higher degree should consult, in advance, with the institution from which they expect to receive their future degree, and, if applicable, receive approval for any courses at FAES at NIH that they plan to use toward their degree.

Transfer of Credits and Advanced Standing Agreements With Higher Education Institutions in Area

FAES has partnered with area universities to offer FAES students unique academic opportunities and pathways of study toward degree completion.

To learn more about credit transfer opportunities at area universities, please email registrar@faes.org.

University Partnerships

Start at FAES, finish at some of the region's top institutions.

FAES has partnered with area universities to offer FAES Academic Programs students unique academic opportunities and pathways of study toward degree completion.

[Harrisburg University](#)

FAES students who successfully complete the FAES Advanced Studies in Technology Transfer or Advanced Studies in Bioinformatics, Harrisburg University will award 6 credits toward its Master of Science in Biotechnology (<https://www.harrisburgu.edu/news/nih-transfer-agreement/>).

[Hood College](#)

FAES students who have completed certain courses at FAES in bioinformatics, public health, statistics, and technology transfer may receive up to 2-9 credits, if accepted into the following Hood academic programs: Bioinformatics Master's in Science degree or Certificate program; Master's in Biomedical Science; and, Master's of Business Administration (<https://www.hood.edu/discover/stories/hood-college-and-foundation-advanced-education-sciences-partners-education>).

[Maryland University of Integrative Health \(MUIH\)](#)

FAES students who have completed certain courses at FAES in chemistry, pharmacology, public health, and toxicology may transfer credits, if accepted into MUIH's graduate programs in integrative health (<https://muih.edu/admissions/articulation-agreements/>).

[University of Maryland, Baltimore County \(UMBC\)](#)

FAES students who have completed certain courses in bioinformatics and data science may transfer up to 15 credits, if accepted into UMBC's Master's of Professional Studies (MPS) in Data Science and Biotechnology. Conversely, qualified UMBC data science and biotechnology students may take up to 9 credits from certain FAES bioinformatics and data science courses, to be transferred as pathway courses into UMBC's MPS in Data Science. An additional 6 credits may be transferred in to fulfill core program requirements within the UMBC MPS (<https://professionalprograms.umbc.edu/home/partnerships>).

[University of Maryland Global Campus \(UMGC - formerly UMUC\)](#)

FAES students who have completed certain courses at FAES in bioinformatics and technology transfer may waive up to 6-9 credits, if accepted into the following UMGC graduate programs: Master's in Biotechnology with a specialization in Bioinformatics, Master's in Biotechnology with a specialization in Regulatory Affairs, Master's in Data Analytics or waive 6-9 credits toward a Certificate in Bioinformatics (<https://www.umgc.edu/transfers-and-credits/transfer-credits/foundation-for-advanced-education-in-the-sciences.cfm>).
