

BIOF 091: Image Processing and Computer Vision with MATLAB

This workshop provides hands-on experience with performing image analysis. Examples and exercises demonstrate the use of appropriate MATLAB® and Image Processing Toolbox™ functionality throughout the analysis process. The workshop also provides hands-on experience with performing computer vision tasks. Examples and exercises demonstrate the use of appropriate MATLAB® and Computer Vision System Toolbox™ functionality.

Credits: 2

Class Type: Workshop

Prerequisites:

BIOF 090

The above workshop or equivalent MATLAB experience.

Program: Bioinformatics and Data Science
